

Safety

Safety Is Always Job One At Lakeside Painting.

- Lakesides creed is “*Safety – Quality – Productivity*” at all times
- The safety of your family and/or employees, your property and our employees are our most important responsibilities.
- We comply with OSHA regulations and guidelines by having in place the following written safety programs:

- Basic Company Safety Management
- Hazardous-Communication
- Blood borne Pathogen
- Hardhat Protection
- Eye Protection
- Grounding Conductor Protection
- Lockout/Tag
- Fall Protection
- Respirator Protection
- Hazard Assessment

- All employees are required to go through an OSHA 10-hour training seminar.
- We are committed to a drug and alcohol free work place at all times.
- We inspect each jobsite to locate hazardous conditions prior to starting. All employees working the jobsite are then informed and trained to protect themselves and others from these potential dangers
- We conduct weekly job box safety talks with monthly company wide safety meeting and training seminars.
- We use full body harness fall protection when working on planks above eight feet from the ground or as required by OSHA.
- Our annually budget over **\$25,000.00 Dollars** for safety in the following areas; continued education, tools & equipment, meetings & training including an extensive safety incentive program annually paying out over **\$14,000.00 Dollars** directly to our employees in the form of safety rewards and bonuses.
